## Portfolio

Objective-C Apps and Swift Apps

## Location based Apps

Apps that i had worked with Objective C are [HubSwirl](#) and [Dutch Examination Apps](#). Apart from this i had worked on a feature in [Dashboard application](#) for Agent One APP in objective C. I had worked a feature in [Palm Agent One App](#). And i had completed BlueDot app with MQTT server protocol which uses webhook concept. But it is still in development. But android version of this app is available in play store

VoIP based Apps

## Australian bussiness Apps

This one is Australian bussiness App names [MyTaxman Customer](#) and [My Taxman business](#). This app comprises of Sinch Video Calling and Webhook Chat.

ATT/ Universal linking/ Spreadly Security Threadcast/ iXGuard/ HMAC security/ Yext API/ Apple map/ Open Dining API/ Apple Pass/ Etc.

## Restaurant based Application

This app is a product based application. This includes several features as per their needs. For this app, have repeated customers from Papa's Murphy, Parker's, PFChangs, StoneGrill, TokoJones etc.. For this product we have security and other authentication services.

SwiftUI Applications

## My Own Works and Blogs

I always use my personal time to make me update in iOS. Here is my personal blogs related to iOS in medium (<https://lyvennithasasikumar.medium.com>). Also

have all the works as repo in my git hub(<https://github.com/LyvennithaQgen>)

---

## References

**Aravind Kumar**

Senior iOS developer at ZOHO Corp

“ Lyvennitha is always curious about of new things. Whenever company back with new features, she is the one who voluntarily come to do the things. she learns quickly and is an asset to any team.

**Baskaran Manigandan**

Senior iOS developer at Hoffensoft

“ If everyone had co-workers as great as Lyvennitha, no one would ever complain about work again. I appreciate your team work and enthusiasm every day. Thanks for all you do.
